

ArcelorMittal

ArcelorMittal Bissen

The plant of Bissen

The plant of Bissen was created in 1910 and is now part of Long Products

YEARLY PRODUCTION

200.000 tons of wires
For 5 hectares plant

15.000KM

Of ArcelorMittal Bissen fences
on the French road/railway
network

RELEVANT EQUIPMENT

30 drawing machines
3 galvanisation lines

380 employees

Facilities of Bissen

FACILITIES

- 24 drawing machines (1 to 14 blocs)
- 15 drawing machines for fiber (8 to 14 blocs)
- 3 galvanization lines (46 + 20 + 40 wires)
- 1 annealing furnace
- 2 glued fibers lines
- 2 robots for vineyard wires
- 3 field fence machines (width of rolls from 0.60 to 2.20m)
- 6 welding machines (width of rolls from 0.40 to 2.50m)

KEY FIGURES 2018

- Fencing Agribusiness (FAB), 32kt
- Industrial wire (IW), 35kt
- Fibers (FIB), 31kt

Products of Bissen

The plant of Bissen produces a wide panel of wires for industry, transports or agriculture.

CRAPAL® WIRE

Used for the construction of gabion walls, Crapal® wire has been constantly improved since 1984.

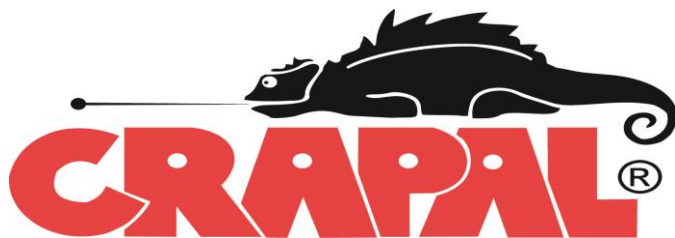

GOOD-TO-KNOW

WireSolutions has been chosen as the largest steel fibre supplier to the Crossrail London Project. More than 11.000 tons have been supplied from our plants in Sheffield (England) and Bissen (Luxembourg).

APPLICATION

- Vineyard wire
- Residential Fencing
- Gabion
- CAW
- Fibers and glued fibers for flooring, tunneling and precast

VINEYARD WIRE

- 80 years of experience in vineyard business.
- Crapal® is now supplied for vineyard wire
- It is coated by CrapalOptimum® ZnAlMg
 - Long life span covering
 - Simple handling
 - Economical advantage for end users

Investments and issues

Investments and issues contribute to the perpetual improvement of the quality our products and management

KEY FACTS 2018

- New products have been developed
 - Crapal@Color, new niche market
 - Trombone spikes for organic wines
 - TRM® wires for alternative way of trellising
- Safety results : 0 lost time injury, 1 adapted work, 2 accidents without stoppage
- Excellent activity in DIY market with LeroyMerlin customer
- Integration in long products

ISSUES

- Increase sales & prod volume at full capacity and profitability
- Most innovative and efficient wire producer in our markets
- Worldwide reference in trellising wire
- Key player in residential Business
- Reference in CAW Land and Subsea cable in Europe
- Number one anti-corrosion solution provider for wire
- Major actor in Fibers; complete solution provider to the construction industry.
